With the helidars almost here, fire of late, it seems to have come back into fashion—and into my fire records. chiefs in most cities are commencing to assisted in the fact that fire insurance progress apprehensive. From past experitection may be voided by the introduction of hizards not contemplated under the the American home can be turned from policy, I have made no mention. Such the American home can be turned from

the American home can be turned from a time of rejoicing into due of sorrow; for there are many fire hazards poculiar to the season. Nice Chief Howard L. Starton shares this anixiety, and he therefore issued Wednesday a brief note of acvice to the people of this city. "About this time of year," said the chief, "the children—and a good many grown-ups, too, only they won't admit it—are impatiently counting the days until Christmas. Above all other days, Christmas should be an occasion of universal cheer. It should be, and yet—in many fourtheis it is likely to become a time of tragedy because of death or injury fourseholds it is likely to become a time of tragedy because of death or injury from fire, if care is not exercised. That is a grim thought to associate with the Thieffe, I know, and I hope sincerely fluit, people will understand my position. I am aspaking because it is my plain duty, to do so, especially since my own experience is backed up by some statistics. perfence is backed up by some statistics of the present of the perfect of the per

annet approach to safety so long as it is moolen decked with lighted candles. If the tree flames, must be liftunduated, colored electric face. lights are more ornamental and usually far safer. Of course, a brief light focused on the tree in a darkened room, is a sale method and gives; perhaps, the most pleasing effect.

most pleasing effect.

"It is not only on the tree, however, that candles are dangerous." went on the chief. "Placing them in windows, where are inflammable curtains and decorations, is extremely dangerous. All open flame lights are dangerous. I am laying emphasis on the candle, though, because, ed into the jangue of the fire alarm."

policy, I have made no mention. Such, however, is the case, and this possibility supplies a further reason for carefulness.

'Here are a few additional precautions which I urge the public to observe, in homes, in stores and elsewhere.' Make mure that Christmas trees are securely set up, so that they, will not topple over, and keep them away from heating and lighting fatures. Use metal tinsel, flake aspestes and pewdered mice for mow effects, instead of paper clippings and cotton. Smekers should extremely cureful with matobes and smoking material while near trees and decorations. Everygreen should be re-moved immediately after Christman be-fore they have completely dried out.

"Avoid toys requiring 'alcohol, gaso-kno or kerosene for their operation, and also fijmsy motion-picture machines using inflammable films. Low-priced electrica playthings, too, should be tabooed, since they often are defectively wired and fre-

heastiful symbol, and one that should be glass, obtainable at any drug-store.
